

CHAMBERLAINS PARK

A Community Oasis

FROM FARMLAND TO COMMUNITY PARK

Chamberlains is one of nine communities that make up the Town of Conception Bay South (CBS). During its initial settlement, Chamberlains was popular among farmers looking to work the land. When a road to St. John's was built in the mid 1800's, these farmers could sell their produce to residents of the capital city.

Fast forward to 1996 and this 16 acre plot of farmland was donated to the Town of Conception Bay South to be used as a community park. The area is a mix of wetland, forest and meadow; and many varieties of flora and fauna call it home.
